STAFF COMMENTS AND BACKGROUND INFORMATION:

As of November 2020, the City of North Las Vegas and Zoll Medical Corporation entered into a contract for the purchase of medical products, equipment & services. The basis for this amendment is the significant increase in EMS transports and supply usage. Currently, there is over a 40% surge in crew transports since the deployment of the new EMS model.

Additionally, the cost of goods continues to increase for medical products, equipment & services. In some cases, this has risen over 10% compared to the previous year. As our contract renews next fiscal year, it is important to ensure this amendment will provide for an adequate amount to operate our crews with the same, if not better, support to our community response.
