**STAFF COMMENTS AND BACKGROUND INFORMATION:**

This All-Hazards Emergency Operations Plan (Plan) describes the operations response, and recovery methods to be implemented during a major disaster or emergency situation. The Plan approaches emergency management through the identification of emergency support functions common to all disasters. The Plan enables standardization in emergency prevention, protection, mitigation, response, and recovery, as well as emphasizes the importance of safety and awareness.

All City personnel who have a role in the safety and welfare of the community are responsible to be familiar with the Plan and to assist with its implementation in the event activation of the plan becomes necessary. An Emergency Operations plan is not only necessary but required by the federal government by all agencies receiving federal funds. All community partners are also encouraged to be aware of this operational plan and how they can engage with us to ensure operational effectiveness.
