LETTER OF PROMULGATION

Providing a safe community is one of the most important services of government. The protection of life and property in time of emergency or disaster is essential for the residents and businesses of the City of North Las Vegas.

This document, **The City of North Las Vegas, 2024 All-Hazards Emergency Operations Plan**, describes the operations, response, and recovery methods to be implemented during a major disaster or emergency. This all-hazards plan approaches emergency management through the identification of emergency support functions common to all disasters thereby eliminating the need to address each disaster or emergency separately.

Emergency Management continues to be an evolving discipline in today's society. More than ever before, the importance of emergency preparedness and readiness must be a priority within local government with a "Whole Community" approach. Any person who has a role in the safety and welfare of the community is encouraged to be familiar with this plan and to assist with its implementation in the event an activation of the plan becomes necessary.

Executed this _____ day of _____ of 2024.

Micaela Moore
City Manager
