STAFF COMMENTS AND BACKGROUND INFORMATION:

On December 15, 2023, an inactive bioreactor at the Water Reclamation Facility (WRF) unexpectedly filled with influent as a result of a failure in the link seal. The Utilities Department determined that four of the six link seals in cells 1 and 2 should be replaced immediately.

The Utilities Department solicited three quotes from New-Com, Inc. d/b/a MMC Incorporated (“MMC”), Las Vegas Paving, and Harber Company for the replacement of the two remaining bioreactor link seals. MMC submitted the most competitive bid.

Staff recommends City Council approve the contract with MMC in the amount of \$73,150.
