STAFF COMMENTS AND BACKGROUND INFORMATION:

North Las Vegas Municipal Code ("NLVMC") Chapter 5.52 concerns utility license fees. The intent of the proposed ordinance is to amend Chapter 5.52 to clarify that its provisions encompass all telecommunication service providers who hold a certificate of public convenience and necessity issued by the Public Utilities Commission and operate as public utilities, including those who indirectly provide telecommunication services to the public utilizing City rights-of-way in whole or in part, and receive intrastate revenue related thereto. The remaining amendments correct a scrivener's error in NLVMC Section 5.52.030, and correct the use of "Public Service Commission" to the "Public Utilities Commission" throughout Chapter 5.52. The proposed ordinance is set for final action on August 21, 2024.
