Leslie Nix  
Director of Grants Development and Administration  
City of North Las Vegas  
2250 Las Vegas Blvd N, North Las Vegas, NV 89030

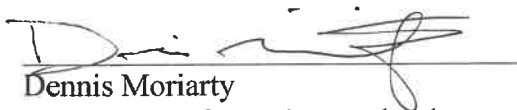

Greetings,

I am writing on behalf of the IT Department of the City of North Las Vegas to express our commitment to procure rugged tablets and drones as part of the city match portion for the grant application submitted to the Nevada Division of Emergency Management, Building Resilient Infrastructure and Communities Program titled the "City of North Las Vegas Building Code Infrastructure and Training Program." The total investment will equal \$81,000 over the course of the three-year project period.

Our city recognizes the importance of integrating innovative technology solutions to enhance various operations, especially those related to building code and infrastructure. With the support of this grant opportunity, we aim to leverage rugged tablets and drones to streamline our processes, improve efficiency, and ultimately enhance the quality of services provided to our community.

The rugged tablets and drones are crucial components of our proposed project outlined in the grant application. These devices will enable our teams to enhance the quality and efficiency of our building inspection processes, thus contributing significantly to the success and impact of the project.

Sincerely

  
Dennis Moriarty  
Director of Information Technology  
City of North Las Vegas
