

# CITY OF NORTH LAS VEGAS

## INTEROFFICE MEMORANDUM

---

To: Robert Eastman, Manager, Planning & Zoning, Land Development & Community Services Dept.  
From: Jimmy Love, Major Projects Coordinator, Department of Public Works  
Subject: DA-04-2024 **Aliante TRU**  
Date: June 10, 2024

In addition to the requirement to comply with the *City of North Las Vegas Municipal Code – Titles 15 and 16, NRS 278* and accepted *Clark County Area Uniform Standard Drawings*, the Department of Public Works recommends the following conditions of approval:

1. Approval of a traffic study is required prior to submittal of the civil improvement plans. Please contact Traffic Engineering at 633 2676 to request a scope.

For more information regarding the land development, process and other associated requirements in the City of North Las Vegas, please visit the City's website and find the **Land Development Guide**:

Re: Letter of Intent – Major Modification to Development Agreement  
Tru by Hilton at Aliante  
Portion of APN 124-20-501-008  
Nature Park Drive, North Las Vegas

Dear Mr. Eastman:

My firm represents Sun West Commercial, LLC (“Sun West”). Through this application, North Valley Enterprises, LLC (the “Applicant”), on behalf of Sun West, requests a Major Modification to the Development Agreement between the City of North Las Vegas and North Valley Enterprises, LLC dated as of January 16, 2002 (the “Development Agreement”). Sun West respectfully submits the following proposal to develop a Tru by Hilton branded (non-gaming) neighborhood hotel (the “Project”) on a portion of a 6.16-acre site, bearing Clark County Assessor Parcel Number 124-20-501-008, generally located on the northeast corner of Nature Park Drive and Aliante Parkway in the Aliante Corporate Center (the “Property”). The Property is located within the Aliante Master Planned Community on Parcel 42. Sun West has developed several hotels in North Las Vegas and a total of 11 in Southern Nevada, as well as hundreds of custom homes, and looks forward to bringing an additional product of Hilton quality to the lodging options already existing within the prestigious Aliante community.

The Property that makes up the Aliante Corporate Center is zoned C-P MPC, and is the only area within the Aliante community that was initially proposed for commercial professional office uses. The Project is proposed on the vacant pad portion of the Aliante Corporate Center where parking and infrastructure were constructed as part of the original development, but where the third office building originally contemplated for the site was never constructed. Despite years of effort by the owner and broker, this final developable pad has been vacant and without a market to absorb additional office space. The owner has been seeking a viable, but also compatible, use for the final pad, and is pleased to support the proposal for the Tru by Hilton as an addition to the Aliante community.

Although not required, Sun West conducted a neighborhood meeting on April 1, 2024 at Aliante Library where Sun West outlined the proposed Project in detail and received feedback from interested neighbors and community members. Councilman Cherchio and Mayor Pro Tem Black were both in attendance, and we look forward to continuing to work with neighbors and the City Council through the consideration of this submission.

### **Use**

The proposed 122-room Tru by Hilton product complements the region by providing lodging to a different but broad range of travelers and guests than is currently served by existing facilities within the area. Ideal for leisure or local accommodations, Tru by Hilton offers efficiently designed modern guestrooms that feature oversized windows for natural light, with technology that guests require built efficiently into the rooms to optimize the guest experience. This Tru by Hilton product will be locally inspired and will offer guests a tailored local hotel product near family and friends residing in the area, or close to local events. Guests will have access to the amenities they need such as a complimentary breakfast, open lobby, fitness center, and swimming pool, without the broader facilities present in nearby resort hotels that appeal to a different user profile. The property will be ideal for lodging visiting family and friends, or a stay when a local resident's home is temporarily unavailable. At Tru by Hilton, guests will have to option to stay close to family and friends without the need to pass through a busy casino and its associated atmosphere. The Tru by Hilton brand is modern and functional, without the additional uses that serve as independent drivers of traffic to the Property.

### **Design**

The Project will consist of a four-story, 122-room non-gaming hotel with swimming pool, to be constructed almost exclusively within the pad designed for the office building originally contemplated for the site. Sun West has worked with Hilton to provide a design that is consistent with the existing buildings, as shown in the elevations included with the application materials. The proposed height of 42 feet will be architecturally consistent with the two 35-foot buildings already constructed on the parcel, and in order to further enhance the site as a whole, Sun West has secured approval to upgrade the current landscaping and to re-paint the two existing buildings for a consistent aesthetic that lives up to the Hilton brand standard. In addition, Sun West has added shutters designed to screen the view from hotel windows that are directed towards the nearby residential neighborhood. The proposed Project and associated improvements will constitute an enhancement to the overall Aliante Corporate Center complex in place of the existing dirt lot.

### **Ingress/Egress & Traffic Study**

Ingress and egress to the Property will not be changed, and the parcel will continue to be served by the three existing driveways on Nature Park Drive. Prior to submitting this

application, Sun West secured a formal Traffic Study for 2470 Nature Park Drive from Lochsa Engineering, a copy of which is enclosed with this application. The Traffic Study found the existing traffic infrastructure in the area to be sufficient, and did not recommend any additional driveways or improvements to nearby intersections. Sun West remains willing to work with the neighbors to direct traffic to and within the site to further integrate Tru by Hilton visitors within the overall Aliante Corporate Center environment.

### **Parking**

The parking lot for the existing Aliante Corporate Center provides 396 parking spaces. The parking study performed by Lochsa Engineering pursuant to the ITE standards, “Parking Generation – 6<sup>th</sup> Edition,” (included with the application), calculates that the existing buildings require 102 spaces, and the proposed hotel use requires an additional 90 spaces to serve the 122 rooms. Preliminary site plans to accommodate utilities and site integration for the hotel suggest that approximately 20 parking spaces on the north side of the proposed hotel building will be displaced by the building footprint. Even with this displacement, the site will still have an excess of 76 parking spaces. We anticipate that the exact number of spaces will be finally determined upon completion of the various building plans for permitting.

### **Request for Major Modification**

The development of the proposed Project on the Property requires a Major Modification to the Development Agreement, to allow a “Neighborhood Non-Gaming Hotel” as a permitted use in the Professional Office Commercial (C-P MPC) zone.

More specifically, the Applicant requests a Major Modification to allow for the following revisions to the Development Standards (Exhibit “A”) within the Development Agreement:

1. Add a definition of “Neighborhood Non-Gaming Hotel” under Section 1.9, to be defined as follows:

Section 1.9.30(a): Neighborhood Non-Gaming Hotel: A stand-alone hotel not to exceed 122 guest rooms, in which lodging is provided and offered to guests for compensation on a nightly basis. Gaming is prohibited in connection with a Neighborhood Non-Gaming Hotel. A Neighborhood Non-Gaming Hotel may provide complimentary breakfast and food services as a Permitted Accessory Use pursuant to Section 4.13(D) but a full-service restaurant and convention facilities are not permitted in connection with a Neighborhood Non-Gaming Hotel.

2. Add “Neighborhood Non-Gaming Hotel” to Section 4.13, Subsection B, as a Principally Permitted Use.

Robert Eastman  
May 29, 2024  
Page 4

3. Amend and restate Section 4.13, Subsection D, Permitted Accessory Uses, as follows:

D. Permitted Accessory Uses.

*Permitted accessory uses shall be amended to include the following:*

Coffee Shop and/or Restaurant of less than 2,000 square feet, located within or attached to an office building or Neighborhood Non-Gaming Hotel of a greater floor area.

4. Amend and restate Section 4.13, Subsection E, as follows:

E. Setbacks and Height.

Maximum height of 42 feet specifically in connection with a Neighborhood Non-Gaming Hotel.

Tru by Hilton Aliante will be the perfect family-friendly destination. The proposed use is intended to provide affordable non-gaming accommodations for local residents and their guests and will be a valuable addition to the Aliante community. The Property is strategically located adjacent to the 215 beltway and the Project is compatible with adjacent uses in terms of scale, site design and operating characteristics.

If you have any questions regarding this request or any of the materials we have provided, please feel free to call.

Sincerely,

  
Maren Parry

MP/cnw
