STAFF COMMENTS AND BACKGROUND INFORMATION:

On February 21, 2024, Council ratified the emergency agreement with Rain for Rent in the amount of \$157,773.86 for the rental of pumps to divert influent flows into the bioreactor while repairs were made to the pipe seal.

Due to additional required services and extended lead time on parts, it was necessary for the Utilities Department to add to the services of the rental agreement by \$43,807.07, bringing the total from \$157,773.86 to \$201,580.93. This requires an increased expenditure of \$201,580.93 from the Utilities Enterprise fund.

Staff recommends that City Council approve the amendment of the rental contract with Rain for Rent and authorize spending authority for the entire agreement.
