Building Maintenance Warehouse

We are excited to announce the purchase of a new facility to support our incredible Building Maintenance Division!

The 15,000 square ft. of warehouse space will allow Building Maintenance to centralize inventory and keep more items readily available. The purchase of this building supports multiple Strategic Goals, both directly and indirectly!

Thanks to Public Works Assistant Director Bobby Mayes and his team for their dedication, as well as members of the City Attorney's Office, Real Property and Economic Development for helping to make this happen.
