**ANALYSIS:**

The applicant is requesting consideration to reclassify (rezone) the site from C-1, Neighborhood Commercial District, to a C-2, General Commercial District. The subject site is approximately 10.41 acres at the southeast corner of Pecos Road and Tropical

Parkway. The proposed Comprehensive Master Plan Land Use designation for the subject site is Neighborhood Commercial.

According to the Comprehensive Plan, the characteristics and location for Neighborhood Commercial land use (*proposed land use*) should be directly related to adjacent or nearby residential communities in their use, accessibility, scale, and character. The proposed reclassification to C-2, General Commercial District is consistent with zonings located within this land use category.

The purpose of the General Commercial (C-2) District is to provide for the development of intense retail and services that will serve as major community cores. These areas can only be developed where arterial streets can accommodate the very heavy traffic generated by such development. Due to the nature of these areas, proximity to higher density residential districts is appropriate. Within a mile of the proposed site, there are approximately three (3) other properties with a commercial zoning. The commercial areas consists of beauty salons, restaurants, retail, banks, grocery store and convenience food stores with gas pumps. The proposed location is surrounded by existing single-family residential to the north and west and alongside to the east and south property lines of the site.

While C-1, Neighborhood commercial is the preferred zoning for this parcel, C-2, General Commercial is also acceptable due to the size of the parcel and the scale of the development (hospital use). The proposed property reclassification to C-2, General Commercial District is consistent with the existing land use designation of Neighborhood Commercial. Staff does not anticipate any adverse impacts on the exiting residential dwellings surrounding the subject site and recommends approval of the property reclassification.

### **Approval Criteria: (Zoning Map Amendments)**

The City Council may approve zoning map amendments, and the Planning Commission may recommend approval, if the zoning map amendment meets all of the following criteria:

- (1) The rezoning will promote the public health, safety, and general welfare;
  - By developing, the vacant lot into a viable commercial site will assist in reducing the impact of abandoned items and trash as well as provide for new jobs in the area.
- (2) The rezoning is consistent with the comprehensive master plan and the purposes of this Code;
  - The proposed property reclassification to C-2, General Commercial District is consistent with the existing land use designation of Neighborhood Commercial.
- (3) The rezoning is consistent with the stated purpose of the proposed zoning district(s);
  - The proposed property reclassification is in line with the stated purpose which is to promote a balanced supply of commercial, industrial, institutional, and transportation land uses that are compatible with adjacent land uses;
- (4) Facilities and services (including roads and transportation, water, gas, electricity, police and fire protection, and sewage and waste disposal, as applicable) will be available to serve the subject property while maintaining adequate levels of service to existing development;
  - The proposed property reclassification to C-2, General Commercial District should not have a negative impact the existing facilities and services.
- (5) The rezoning is not likely to result in significant adverse impacts upon the natural environment, including air, water, noise, storm water management, wildlife, and vegetation, or such impacts will be substantially mitigated;
  - The proposed property reclassification to C-2, General Commercial District should not harm the natural environment, including air, water, noise, storm water management, wildlife, and vegetation.
- (6) The rezoning is not likely to result in significant adverse impacts upon other property in the vicinity of the subject tract; and

- Staff does not anticipate any adverse impacts on the exiting residential dwellings. The required landscape buffer should have additional trees to assist in mitigating the proposed commercial.
- (7) Future uses on the subject tract will be compatible in scale with uses on other properties in the vicinity of the subject tract.
- The proposed property reclassification to C-2, General Commercial District is to support retail, restaurants (drive-thru), mini warehouse and a hospital which staff feels is compatible with the adjacent residents.
