**STAFF COMMENTS AND BACKGROUND INFORMATION:**

This Roadway Improvement Project consists of modifying the existing median islands on the north and south legs of Decatur Boulevard at its intersection with Craig Road to accommodate dual left turn lanes. As Decatur Boulevard represents a jurisdictional boundary between the City of North Las Vegas (City) and the City of Las Vegas (CLV), the CLV has agreed to participate in the cost for these improvements. The CLV share of the total project costs will be fifty (50) percent, not to exceed \$84,500.00. An amendment to this Agreement will be prepared for Council approval should the CLV's portion of the actual costs exceed this amount.

The Improvements will include preliminary engineering, final design, contract administration, surveying and inspection necessary to remove existing pavement, prepare base material, and construct new pavement section, new lane delineation and traffic control as shown on the attached Vicinity Map. After the improvements are complete, the City and CLV will each maintain their portion of the roadway within their own jurisdictional boundaries.

**LIST CITY COUNCIL GOAL(S):**

This Interlocal Cooperative Agreement and resulting Roadway Improvement Project is consistent with Council's Priorities of Well-Planned, Quality Growth and a Safe and Livable Community.
