**ANALYSIS:**

(NOTE: The proposed development is located within the Villages at Tule Springs Master Planned Community. The Master Planned Community is regulated by a Development Agreement and has development standards and design guidelines that deviate from the standard code requirements.)

The applicant is requesting Planning Commission consideration to reclassify (rezone) the subject site a parcel from MPC RZ6, Master Planned Community Residential Zone up to 6 Dwelling Units per Acre District to R-1 PCD, Medium-Low Density Residential Planned Community District. The subject site is 39.01 gross acres and is generally located south of the Grand Teton alignment and west of Eglington Street within the Villages at Tule Springs Master Planned Community. The Conceptual Land Use Plan for the Villages at Tule Springs identifies the subject site as Parcel 1.15, Single Family Residential.

The existing zone district is a zoning classification created for the Park Highlands Development Agreement. When the City Council approved the Second Amended and Restated Development Agreement for Park Highlands East a new master planned community was created (Villages at Tule Springs). The Villages at Tule Springs have different zoning districts. The new development agreement created the need for the proposed rezoning.

The proposed zone district, Medium Low Density Residential / Planned Community District (R-1 PCD), allows for development of single-family and two-family residential at low densities and directly complementary uses at a density up to 5 dwelling units per acre. Lot sizes shall range from 5,000-10,000 square feet and greater. This district is intended to be residential in character with a minimum of disturbance due to traffic or overcrowding.

The proposed reclassification (rezoning) is consistent with the parameters set forth in the Development Agreement and the Villages at Tule Springs Conceptual Land Use Plan. The City does not anticipate any adverse impacts on facilities or neighboring land uses surrounding the subject site.

### **Approval Criteria: (Zoning Map Amendments)**

The City Council may approve zoning map amendments, and the Planning Commission may recommend approval, if the zoning map amendment meets all of the following criteria:

- (1) The rezoning will promote the public health, safety, and general welfare;
- (2) The rezoning is consistent with the comprehensive master plan and the purposes of this Code;
- (3) The rezoning is consistent with the stated purpose of the proposed zoning district(s);
- (4) Facilities and services (including roads and transportation, water, gas, electricity, police and fire protection, and sewage and waste disposal, as applicable) will be available to serve the subject property while maintaining adequate levels of service to existing development;
- (5) The rezoning is not likely to result in significant adverse impacts upon the natural environment, including air, water, noise, storm water management, wildlife, and vegetation, or such impacts will be substantially mitigated;
- (6) The rezoning is not likely to result in significant adverse impacts upon other property in the vicinity of the subject tract; and
- (7) Future uses on the subject tract will be compatible in scale with uses on other properties in the vicinity of the subject tract.
