**STAFF COMMENTS AND BACKGROUND INFORMATION:**

The Brooks Avenue Fire Training Center Site Improvements Project generally involves constructing two reinforced concrete pads and placing asphalt over a 3 acre site. The work also includes waterline utility construction, storm drain construction, building utility stub outs, masonry walls, wrought iron fencing, and landscaping.

Five bids were received at Bid Opening held on May 2, 2023. A detailed evaluation was conducted for all bidders. It was determined that the bids submitted were either incomplete, had irregular bid proposals or exceeded the available project funding.

After a detailed analysis of the bids and applicable requirements, City staff has determined that the public interest would be best served by rejecting all bids and advertising for new bids.

Therefore, City staff recommends Council reject all bids for Bid No. 1689.
