00408-180165-450570-000000;  
00408-180165-450571-000000;  
00408-180165-431030-000000

**STAFF COMMENTS AND BACKGROUND INFORMATION:**

As part of the IT Infrastructure Refresh project, the Information Technology department is updating equipment used for broadcasting meetings in the City Council Chambers. Aging cameras and related equipment will be replaced with latest generation models ensuring high quality video capture. New mixers and encoders will also be installed to simplify the live production process. This will also give the added benefit of allowing internal resources to control the broadcasts while reducing the need for external production support.

At its meeting on April 19, 2023, City Council approved an Agreement for Purchase for Audio Visual Equipment and Installation Services with Computer Projection Systems, LLC (Provider) for replacement of the audiovisual system in City Council Chambers. The City's Information Technology departments requested a quote from Provider to update the equipment used for broadcasting meetings in the City Council Chambers. This agreement is exempt from the competitive bidding requirements pursuant to the exceptions noted in NRS 332.115(c) and NRS 332.115(j).
