Explanation: This will be funded from PW-Building Maintenance and Flood Account

ACCOUNT NUMBER:

100-160163-430625

STAFF COMMENTS AND BACKGROUND INFORMATION:

Bid B-1682 was conducted on December 6, 2022 to award a contract that will allow for short term rentals of large equipment for different situations that arise annually for Citywide projects including emergencies as well as Flood and Development control. This project was competitively bid under Bid B-1682, and H&E Equipment Services was selected as one of the 7 vendors with the lowest overall responsible, responsive bids for each of the line items in the Bid.

Heavy Equipment is a critical necessity for the City in order to meet daily objectives to maintain safe roadway conditions and to maintain flood channels and detention. The City needs to have multiple choices to meet the needs as they arise. If equipment is not available by the lowest bidder, then City will utilize the next available lowest vendor in line who can provide the heavy duty equipment.

Heavy equipment rental fees for the City used for the flood maintenance program is reimbursed by the Clark County Regional Flood Control District.

CIP No.
